

Date/Location: 02-April-2020, Group call

Attendees: MHN, MAC, TAP, MMS, TBY

Start Time: 12:05 am

End Time: 12:35 am

Decisions

=====

- * We have made use cases for our project.
- * We have also made our use case diagram for our project.
- * All of us have been come up with title, actor, scenario, pre-condition, post-condition and exception for each use case.
- * All of us have been specified our Database Schema, ER Diagram and User Interface (UI) for our project.
- * All of us have been added to those works in our project's Slack channel, Trello board and GitHub repository.

Actions

=====

1. Searching and gathering knowledge about our project framework Django.
2. Finding the testing tools for project.
3. Uploading all the completed work into Slack, Trello and GitHub repository.
